About: Private lessons in Swedish A1\_C1, regular course

[L2 Language Studio](#)

We are happy to offer you Swedish tuition online at any level! I am a Swedish language teacher with more than 20 years of experience. Studying with us at L2 Language Studio as a private student, provides you a great opportunity to learn Swedish in a unique and flexible way. I am daily teaching Swedish to professionals and I am used to teach all kind of students, from illiterates to highly professionals, and at all levels A1 to C1, being a language teacher for over 20 years in the *Swedish school system*.

The course you are interested in, A1-C1, is a regular course in Swedish online. More detailed information about the content in this course I'll send you after you have applied, and knowing exactly what level you should study. For now, I can inform you that, studying with us you will learn Swedish in a systematic way, using: books (Rivstart A1-A2, B1-B2, C1), video lessons, classes online, sound-files, etc. You will also work with news, literature, music, etc.

*For example, you can have one online -face to face- lesson/week, because you will have a lot of exercises to do between the lessons: sound-files to listen to and practice, writing tasks, and video lessons between the lessons. You can always get help from us by mail and ask anything you want (you'll have feed-back and response by e-mail 24/7).*
